

HSA Notice to Employees Regarding Employer Contributions to HSAs

For Employer - Instructions: Employers that make employer HSA contributions are required to provide this notice to each eligible employee who has not established an HSA by December 31 or if the employer does not know if the employee established an HSA. The employer may provide this notice to other employees as well. However, if an employee earlier notified the employer that he or she has established an HSA, the employer may not condition making the HSA contribution on receipt of any additional notice from that employee. For each calendar year, a notice is deemed to be timely if the employer provides the notice no earlier than 90 days before the first HSA employer contribution for that calendar year and no later than January 15 of the following calendar year.

For Employees - Purpose: This notice explains that you may be eligible to receive Health Savings Account (HSA) contributions from your employer if you are covered by a High Deductible Health Plan (HDHP).
